

Supplementary Budget – Briefing Note

2022 Budget

Website Infrastructure Hosting Renewal

Briefing Note required for:

-items +/- \$50,000 or more

-changes in FTE

Dept	Division	Item	Base Supp	Amount	FTE Impact
FBITT	ITT	Website Infrastructure Hosting Renewal	S	\$100,000	
FBITT	ITT	Website Hosting Funded from ITT Web Lifecycle – 17681	S	(\$100,000)	
		Subtotal		\$0	

Background:

The Municipal Public Website hosting infrastructure is nearing end of life and is due to be replaced. This project will be to conduct an assessment of current hosting infrastructure and implement a replacement of infrastructure to sustain the public website.

This planned infrastructure upgrade occurs on a 4 year cycle and was last completed in 2017.

Comment:

An evaluation will be conducted to consider the options for sustaining the website from a hardware and software perspective. This is a window of opportunity to explore 3rd party solutions for hosting the website. A Report to Council will be submitted if broader changes to the public website solution are recommended in this 4 year review.
